Directions to the Department and to Owens Hall

If you are coming to the Department, follow US-460 to Price's Fork Road and take the exit signed for "Downtown." Follow Price's Fork Road to the second traffic light and turn right onto West Campus Drive. The Chemistry Department is the first set of Hokie Stone buildings on your left. These buildings are, in order, Chemistry Physics, Hahn Hall, and Davidson Hall.

If you are coming to Owens Hall, continue *past* the Chemistry Department on West Campus Drive and turn left on the *second* entrance to Drillfield Drive. Drive around the Drillfield until you see a large building with a curved facade in front of you. That is the Library. Owens Hall is around the corner to your right.

For the **Graduate Recruiting Weekend** we recommend that you park your car at the Hotel and take one of our shuttles to Owens.
