PART 1: CURRICULUM FOR LIBERAL EDUCATION (CLE) REQUIREMENTS
(CLE requirements and approved courses are available online:
http://www.cle.prov.vt.edu/guides/index.html) (credit hours in parentheses)

I. Writing and Discourse (Area 1: 6 credits + ViEWS)
ENGL 1105-1106 Freshman English (3) _____, (3) _____
& ViEWS requirement 7

II. Ideas, Cultural Traditions, and Values (Area 2: 6 credits required) (3) _____, (3) _____

III. Society and Human Behavior (Area 3: 6 credits required) (3) _____, (3) _____

IV. Scientific Reasoning and Discovery (Area 4) 8

V. Quantitative and Symbolic Reasoning (Area 5) 9

VI. Creativity and Aesthetic Experience (Area 6: 3 credits required) (3) _____
(Select from approved CLE courses; must be a three-credit course.)

VII. Critical Issues in a Global Context (Area 7: 3 credits required) (3) _____

PART 1: (CLE) credit hour requirement: 24 credits

PART 2: COLLEGE AND DEPARTMENT REQUIREMENTS

I. Chemistry Courses (35 credits) 4
CHEM 1055-1056 1, 6, 6 General Chemistry for Majors (4) _____, (4) _____
CHEM 1065-1066 6, 10, 11 General Chemistry for Majors lab (1) _____, (1) _____
CHEM 2154 12 Analytical Chemistry for Majors (4) _____
CHEM 2164 13 Analytical Chemistry for Majors lab (1) _____
CHEM 2424 Descriptive Inorganic Chemistry (3) _____
CHEM 2565-2566 1, 14 Principles of Organic Chemistry (3) _____, (3) _____
CHEM 2545-2546 Organic Chemistry lab (1) _____, (1) _____
CHEM 4615-4616 15 Physical Chemistry for Life Sciences (3) _____, (3) _____
CHEM 3625 Physical Chemistry lab (1) _____
CHEM 4014 Survey of Chemical Literature (1) _____

II. Mathematics Courses (12 credits)
MATH 1015-1016 6, 16 Elementary Calculus I (3) _____, (3) _____
MATH 2015-2016 17, 18 Elementary Calculus II (3) _____, (3) _____

III. Physics Courses (8 credits)
PHYS 2205 19 - 2206 20 General Physics (3) _____, (3) _____
PHYS 2215 19 – 2216 2020 General Physics Lab (1) _____, (1) _____

IV. Restricted Electives (12 credits)
STAT or CS course Statistics or Computer Science elective (3) _____
CHEM 3xxx-4xxx 21 CHEM/BCHM/CHE electives (3) _____, (3) _____
CHEM ViEWS 7 Additional ViEWS requirement (3) _____

V. FREE ELECTIVES (sufficient to achieve 120 credit graduation requirement or more)
(____) _________ (____) _________ (____) _________ (____) _________
(____) _________ (____) _________ (____) _________ (____) _________

PART 2: College and department credit hour requirement: 96 credits
This checksheet has no hidden prerequisites, although some of the courses listed are prerequisites for other courses. Please see your advisor or consult the Undergraduate Course Catalog for more information.

Credit hours and GPA requirements: Graduation requires completion of a minimum of 120 credit hours with a GPA of 2.0 or greater for all hours attempted. In addition, students must have an in-major GPA of 2.0 or greater counting all required chemistry courses and chemistry technical electives. The in-major CHEM GPA excludes Prior c.

Effective Fall 2014, if a student has taken CHEM 2535 prior to adding a degree in chemistry, a minimum grade of "B" (3.0) is required in order to substitute CHEM 2535 as CHEM 2565. If a chemistry major fails to earn a "C" (2.0) or better in CHEM 2565, the student must either retake this class (and earn the minimum grade) or take CHEM 2535, Organic Chemistry, to remain in good standing for a chemistry degree. If the chemistry major elects to take CHEM 2535, a minimum grade of “B” (3.0) is required to count CHEM 2535 as CHEM 2565 for the CHEM degree.

Chemistry B.A. majors must take three credits of Undergraduate Research, CHEM 4994(H), and make a poster presentation to satisfy the remaining ViEWS requirement within chemistry. Other options for satisfying ViEWS are pursuing a second major, taking ENGL 3764 Technical Writing, and taking COMM 2004 Public Speaking.

PHYS 2206 and PHYS 2216 satisfy CLE Area 4.

MATH 1025 and MATH 1026 satisfy CLE Area 5.

Prior credit for CHEM 1045 may be substituted for CHEM 1065.

Prior credit for CHEM 1046 may be substituted for CHEM 1066.

Effective Fall 2014, if a student has taken CHEM 2114 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2114 as CHEM 2154.

Effective Fall 2014, if a student has taken CHEM 2124 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2124 as CHEM 2164.

Effective Fall 2014, if a student has taken CHEM 2535 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2535 as CHEM 2565.

CHEM 3615 may be substituted for CHEM 4615.

MATH 1025 or MATH 1205 or MATH 1225 may be substituted for MATH 1016.

MATH 1026 or MATH 1206 or MATH 1226 may be substituted for MATH 1015.

MATH 2024 (MATH 1026 prerequisite) or MATH 2204 (MATH 1226 prerequisite) OR MATH 2224 (MATH 1224 and MATH 1206 OR 2015 prerequisite) may be substituted for MATH 2015.

PHYS 2305 (MATH 1205 prerequisite) may be substituted for PHYS 2205 and PHYS 2215.

PHYS 2306 (MATH 1206 prerequisite) may be substituted for PHYS 2206 and PHYS 2216.

SBIO 3444 may be counted towards upper-level CHEM electives.

MINIMUM GRADE REQUIREMENT: Chemistry majors must earn a grade of “C” (2.0) or better in CHEM 1055, 1056, and 2565.

- If a chemistry major fails to earn a “C” (2.0) or better in CHEM 1055, the student must either retake this class (and earn the minimum grade) or take CHEM 1035-1036, General Chemistry, to remain in good standing for a chemistry degree. If the chemistry major elects to take CHEM 1035-1036, a minimum grade of “B” (3.0) is required in both in order to enroll in CHEM 2565 and progress towards the B.A. degree.
- If a chemistry major fails to earn a “C” (2.0) or better in CHEM 2565, the student must either retake this class (and earn the minimum grade) or take CHEM 2535, Organic Chemistry, to remain in good standing for a chemistry degree. If the chemistry major elects to take CHEM 2535, a minimum grade of “B” (3.0) is required to count CHEM 2535 as CHEM 2565 for the CHEM degree.

Language study requirement: The College of Science language requirement may be met by (1) completing 3 years of a single foreign or classical language in high school; (2) earning 6 semester hours of college-level foreign or classical language credit or American Sign Language; or (3) receiving credit-by-examination for a foreign or classical language or American Sign Language. (See the Undergraduate Catalog for more information.) Credits to satisfy the Language Study Requirement are in addition to the 120-credit graduation requirement.

For "satisfactory progress towards degree," these courses and their prerequisites must be completed by the time the student has attempted 72 hours.

CHEM 4014 satisfies part of the chemistry ViEWS (Visual Expression, Writing and Speaking) requirement. Chemistry B.A. majors may take three credits of Undergraduate Research, CHEM 4994(H), and make a poster presentation to satisfy the remaining ViEWS requirement within chemistry. Other options for satisfying ViEWS are pursuing a second major, taking ENGL 3764 Technical Writing, and taking COMM 2004 Public Speaking.

PHYS 2206 and PHYS 2216 satisfy CLE Area 4.

MATH 1025 and MATH 1026 satisfy CLE Area 5.

Prior credit for CHEM 1045 may be substituted for CHEM 1065.

Prior credit for CHEM 1046 may be substituted for CHEM 1066.

Effective Fall 2014, if a student has taken CHEM 2114 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2114 as CHEM 2154.

Effective Fall 2014, if a student has taken CHEM 2124 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2124 as CHEM 2164.

Effective Fall 2014, if a student has taken CHEM 2535 prior to adding a degree in chemistry, a minimum grade of “B” (3.0) or better is required in order to substitute CHEM 2535 as CHEM 2565.

CHEM 3615 may be substituted for CHEM 4615.

MATH 1025 or MATH 1205 or MATH 1225 may be substituted for MATH 1016.

MATH 1026 or MATH 1206 or MATH 1226 may be substituted for MATH 1015.

MATH 2024 (MATH 1026 prerequisite) or MATH 2204 (MATH 1226 prerequisite) OR MATH 2224 (MATH 1224 and MATH 1206 OR 2015 prerequisite) may be substituted for MATH 2015.

PHYS 2305 (MATH 1205 prerequisite) may be substituted for PHYS 2205 and PHYS 2215.

PHYS 2306 (MATH 1206 prerequisite) may be substituted for PHYS 2206 and PHYS 2216.

SBIO 3444 may be counted towards upper-level CHEM electives.
